FROM THE DESK OF FOUNDER AND CHANCELLOR

Dr. Patangrao Kadam

Founder - Bharati Vidyapeeth
Chancellor - Bharati Vidyapeeth Deemed University, Pune

Dear students,

I am very much pleased to see that the foundation stone I had laid has turned out to be the ultimate pinnacle of human knowledge. BVIMR, New Delhi undoubtedly has emerged as one of the most renowned and widely appreciated institute for creating World class leaders. We are dedicated to provide our students a learning ambience to enhance their knowledge base, tacit and explicit at regular pace with inculcation of social responsibility and values.

As rightly said by Edward Bulwer Lytton, "To find what you seek in the road of life, leave no stone unturned". We, at BVIMR, New Delhi leave no stone unturned to provide students with ample opportunities for their holistic development. Our students are fostered with aspirations for achieving academic excellence along with maintaining focus on communal harmony and social responsiveness.

With best wishes,

Dr. Patangraoji Kadam

Demonetization : Announced by Prime Minister, Mr. Modi on 8th November, 2016

On 8 November, 2016, the Government of India announced the demonetization of all Rs. 500 (US\$7.80) and Rs.1,000 (US\$16) banknotes of the Mahatma Gandhi Series. The government claimed that the action would curtail the shadow economy and crack down on the use of illicit and counterfeit cash to fund illegal activity and terrorism. Prime Minister of India Narendra Modi announced the demonetization in an unscheduled live televised address at 20:00 Indian Standard Time (IST) on 8 November, 2016.

Time to say Goodbye to currency notes of Rs.500 & 1000

New Note- 2000 Rs. Note introduced first time in India

Advantages of Demonetization

The biggest advantage of demonetization is that it helps the government to track people who are having large sums of unaccounted cash or cash on which no income tax has been paid because many people who earn black money keep that money as cash in their houses or in some secret place which is very difficult to find and when demonetization happens all that cash is of no value and such people have two options one is to deposit the money in bank accounts and pay taxes on such amount and second option is to let the value of that cash reduced to zero.

Since black money is used for illegal activities like terrorism funding, gambling, money laundering and also inflating the price of major assets classes like real estate, gold and due to demonetization all such activities will get reduced for some time and also it will take years for people to generate that amount of black money again and hence in a way it helps in putting an end this circle of people doing illegal activities to earn black money and using that black money to do more illegal activities.

Another benefit is that due to people disclosing their income by depositing money in their bank accounts government gets a good amount of tax revenue which can be used by the government towards the betterment of society by providing good infrastructure, hospitals, educational institutions, roads and many facilities for poor and needy sections of society.

With cash transactions facing a reduction, alternative forms of payment will see a tremendous surge in demand. Digital transaction systems, E-wallets (like PayTM, Freecharge etc.) and apps, online transactions using E-banking, usage of Plastic money (Debit and Credit Cards), etc. will definitely see substantial increase in demand.

Cashless Economy

Goods and Service Tax (GST)

Goods and Services Tax (GST) is an indirect tax applicable throughout India which replaced Multiple cascading taxes levied by the central and state governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017, following the passage of Constitution 122nd Amendment Bill. The GST is governed by a GST Council and its Chairman is the Finance Minister of India. Under GST, goods and services are taxed at the following rates, 0%, 5%, 12% and 18%. There is a special rate of 0.25% on rough precious and semi-precious stones and 3% on gold. In addition, a cess of 15% or other rates on top of 28% GST applies on few items like aerated drinks, luxury cars and tobacco products.

Bharatiya Janata Party won U.P.

The BJP swept to power in Uttar Pradesh with a two-third majority on Saturday with the largest vote share of any party in the State since 1957. While the Samajwadi Party-Congress Alliance fared poorly, the biggest loser was the Bahujan Samaj Party.

Yogi Adityanath: New Chief-Minister of U.P.

Yogi Adityanath (born Ajay Mohan Bisht on 5 June, 1972) is an Indian priest and Hindu nationalist politician who is the current Chief Minister of Uttar Pradesh, in office since 26 March, 2017. He has an image as a Hindutva firebrand. He was appointed as the Chief Minister on 26 March, 2017, after the Bharatiya Janata Party (BJP) won the 2017 State Assembly elections, in which he was a prominent campaigner. He has been the Member of Parliament from the Gorakhpur constituency, Uttar Pradesh for five consecutive terms since 1998.

Para Athletics Championship, 2017

The 2017 World Para Athletics Championships were a Paralympic track and field meet organized by the World Para Athletics subcommittee of the International Paralympic Committee, held at Olympic Stadium in London from 14 to 23 July 2017. It was the 8th edition of the event, formerly known as the IPC Athletics World Championship prior to 2017, and featured 213 medal events.

They preceded the 2017 IAAF World Championships also being held in London, marking the first time that a single city has hosted both the IAAF and IPC athletics championships in the same year; London previously hosted the 2012 Summer Olympics and Paralympics.

For India, the event was one to remember as it culminated in its highest ever tally at a Para Athletics World Championships. The nation ended the Championships with a total tally of five medals. These include one gold, two silver and two bronze medals. In the 2015 World Championships, the nation had recorded a tally of two silvers, while in the one before it, it had a solitary gold.

Donald Trump - New President of U.S.A

In one of the most shocking U.S. elections in modern political history, Donald Trump has defeated Hillary Clinton. Trump's upset was one he had been predicting for months, gleefully comparing himself to the Brexit vote in England. Yet it was one that almost no other major predictors foresaw, all giving Clinton various degrees of comfortable leads in their Election Day predictions.

NASA Juno Space craft reached Jupiter

Just days after celebrating its first anniversary in Jupiter orbit, NASA's Juno spacecraft will fly directly over Jupiter's Great Red Spot, the gas giant's iconic, 10,000-mile-wide (16,000-kilometer-wide) storm. This will be humanity's first up-close and personal view of the gigantic feature -- a storm monitored since 1830 and possibly existing for more than 350 years.

Brexit: UK leaving the European Union

It is a word that has become used as a shorthand way of saying the UK leaving the EU - merging the words **B**ritain and **exit** to get Brexit, in a same way as a possible Greek exit from the euro was dubbed Brexit in the past. A referendum - a vote in which everyone (or nearly everyone) of voting age can take part - was held on Thursday 23 June 2016, to decide whether the UK should leave or remain in the European Union. Leave won by 51.9% to 48.1%. The referendum turnout was 71.8%, with more than 30 million people voting.

The 2016 Summer Olympics, officially known as the Games of the XXXI Olympiad and commonly known as Rio 2016, was a major international multi-sport event celebrated in Rio de Janeiro, Brazil, from 5 August to 21 August 2016. More than 11,000 athletes from 205 National Olympic Committees, including first time entrants Kosovo, South Sudan, and the Refugee Olympic Team, took part. With 306 sets of medals, the games featured 28 Olympic sports, including rugby sevens and golf, which were added to the Olympic program in 2009. These sporting events took place at 33 venues in the host city, and at five in São Paulo, Belo Horizonte, Salvador, Brasília, and Manaus.

UK activates article 50

The Lisbon Treaty became law in December 2009, eight years after European leaders launched a process to make the EU "more democratic, more transparent and more efficient". It's an agreement signed by the heads of state and government of countries that are part of the EU. Part of that law was [Article 50](#). A very basic five-point plan should any country wish to leave the European Union.

North Korea Nuclear Test

North Korea announced, it had conducted its first successful test of a hydrogen bomb- bombs, also known as thermonuclear warheads, are massively more powerful than atomic bombs, using fusion - the merging of atoms - rather than fission to unleash enormous amounts of energy. Though again it has never been confirmed, that claim alarmed the international community.

Fidel Castro: Cuba's leader of revolution died

Fidel Alejandro Castro Ruz (August 13, 1926 – November 25, 2016) was a Cuban revolutionary and politician who governed the Republic of Cuba as Prime Minister from 1959 to 1976 and then as President from 1976 to 2008. Politically, a Marxist–Leninist and Cuban nationalist, he also served as the First Secretary of the Communist Party of Cuba from 1961 until 2011. Under his administration, Cuba became a one-party socialist state; industry and business were nationalized, and state socialist reforms were implemented throughout society.
